Q-335	INITIAL RELEASE	29 / MAR / 2021

MODEL(S) AFFECTED:
2022MY F-650 / 750 Vehicles Equipped with Gasoline engines
ISSUE / DESCRIPTION:
"This is an informational Bulletin that is identifying engine cooling improvements which have been implemented for the 2022MY F650/750 vehicles equipped with gas engine."

Side-Grille Openings: Provides improved and increased air cooling into the engine compartment. All F-650 / 750 vehicles will have this new improved side-grille opening.

PREVIOUS MODEL YEAR SIDE-GRILLES

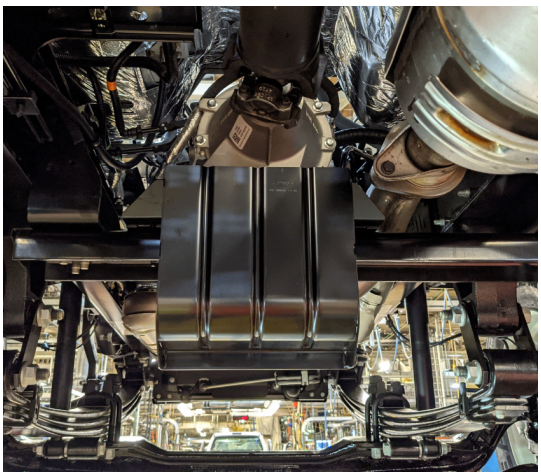
NO SIDE-GRILLE OPENINGS

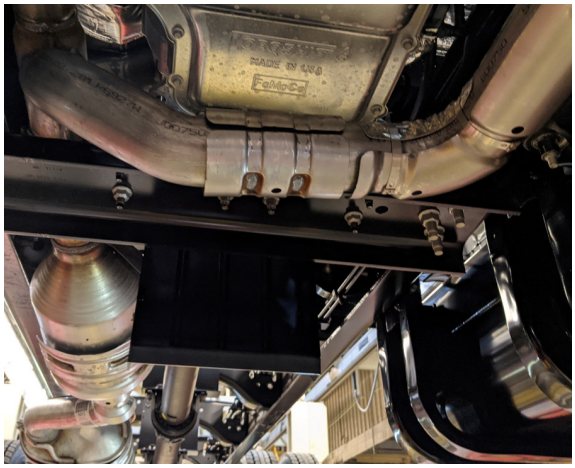
2022MY MODEL YEAR SIDE-GRILLES

IMPROVED SIDE-GRILL OPENINGS

Engine Air Deflector (Under hood): The air deflectors implemented to direct air from radiator fan to the spark plug area in order to reduce temperatures.

Driveshaft Air Deflector: A new air deflector is provided to cool the first driveshaft U joint. Do not modify or remove this sir deflector as premature failure of the U joint may occur. All Gasoline engine F650/750 vehicles have this deflector





Front of Vehicle

Rear of Vehicle

Refer to the Body Builder Layout Book for additional guidelines and recommendations. If you have any questions, please contact the Ford Body Builders Advisory Service as shown in the header of this bulletin.
